

Secabo TS7 swing away heat press

With its comfortable automatic swing away system, the new and improved Secabo TS7 transfer press provides a particularly large working space for easy alignment of the transfer objects. The large base plate with dimensions of 40cm x 50cm is placed in portrait orientation, which makes an exact positioning of elements and objects easier. The auto-open and auto-swing function of the TS7 allows even more flexible and more comfortable working. The Secabo TS7 is suitable for all common heat transfer methods and can be used in almost any area of transfer technology.

feature overview:

digital controller

Time and temperature are set within one digital controller.

big working space

The heat press can be opened up to 100° to work easily and safely

variable pressure

the pressure can easily be adjusted - depending on the technology and object

safe use

The safety and quality of the machines is permanently controlled by German safety standards

exact temperature distribution

The high-quality heat plate ensures an exact temperature distribution over the whole heating plate

little hysteresis

The temperature controllers reduce temperature fluctuations to a minimum

technical data:

heat press:	Secabo TS7
type:	auto swingaway heat press
working area:	40cm x 50cm
max temperature:	225°C
max time setting:	999s
max pressure:	350g/cm ²
pressure setting:	Height adjustment base plate
power supply:	230V / 50Hz - 60Hz, 1,8kW
environment:	+5°C - +35°C / 30% - 70% humidity
dimensions (w x h x d):	50cm x 92cm x 80cm
scope of delivery:	heat press, cable, manual

available accessories:

Silicon mats for protection of transfer elements - Heat-resistant mats made of silicone can be used as an adjustment to unevenness and as protection for sensitive surfaces during the heat press process. Thickness: 1mm, available formats: 30cm x 40cm, 40cm x 40cm, 40cm x 50cm, 40cm x 60cm.

Heat plate protection with PTFE-coating - Self-adhesive, fiberglass film with PTFE-coating. As replacement for damaged or worn out, non-stick coated heat presses. Suitable for all common heat press models. Strength: 150µm. Available formats: 28cm x 38cm, 38cm x 38cm, 40cm x 50cm.

cross laser - Mit den flexibel einsetzbaren Kreuzlasern von Secabo lassen sich sowohl Textilien und andere Objekte als auch Transferelemente wie Flexfolien, Sublimationspapiere u. ä. einfach und reproduzierbar positionieren. Erhältlich als Tisch- und Standversion, jeweils mit einer oder zwei Kreuzlaser-Dioden.
